Darren Hine
Commissioner Of Police
Tasmania Police Force
37 – 43 Liverpool Street
Hobart Tasmania 7000

Attention: - Regarding Breaking the Law!

Subject: - Damien Bugg QC (Ex- DPP) Tasmania,
committing Perjury before the Supreme Court Of
Tasmania also Perverting The Law and Course of
Justice.

Subject: - Ray Martin, The Show Producer and
Executive Producer of Channel 9 A Current
Affairs TV Show, back in 1996.

Dear Mr. Commissioner

In this my second letter
to you there, I am sending along the following
enclosed called “The Doctored Video on Channel
9”.

This will be added to evidence brief against
Damien Bugg QC also.

Be introduced as New evidence to be used against Ray Martin, The Producer and Executive Producer of A Current Affair back in 1996 at the time, in charging them with “Perverting The Law and Course Of Justice” under Tasmanian Law there in your State.

- 1) Lets deal with Damien Bugg QC, at Martin Bryant sentence hearing in the Tasmanian Supreme Court in Hobart, the said person deliberately lied to the Court and showed Fabricated evidence to the Court to help prove Martin Bryant guilty as they charged him with.

Damien Bugg knew the videotape had been fabricated by either A Current Affair under orders from Ray Martin, or by The DPP Office or by Tasmanian Police.

Please see the sheet within the camera doesn't lie and pictures don't lie, the video tape was shot / taken 1 ½ hours after the Massacre went down and the gun shots were added on afterwards.

Can you please put this with other information I sent to you in my first letter and pass onto the Police Officers you assign to investigate the said chargers I want Damien Bugg charged with and brought before the Courts.

2) Ray Martin, The Show Producer and Executive Producer of Channel 9, A Current Affairs TV Show, back in 1996.

I am hereby asking and requesting the Officers you assign to investigate Damien Bugg, also look at charging Ray Martin, The Producer, The Executive Producer of A Current Affair TV Show back in 1996.

With Perverting The Law and Course of Justice under Tasmanian Law for their part they played in all this matter I bring before you.

They knowingly and deliberately showed Fabricated Video to Tasmanian viewers to help prove the case against Martin Bryant that he was guilty of the crime they all say he committed.

These people cannot be allowed to get away with their crimes of showing Fabricated evidence to the Court and the general public, they have to be held accountable.

Yours truly
Lloyd T Vance
